PHD COURSE: NEW TECHNOLOGY AND COMMUNITY PERSPECTIVES IN ARCTIC HEALTH RESEARCH 13.-15. NOV. 2021 IN NUUK AND ONLINE IN CONNECTION WITH GREENLAND WEEK of Science

Greenland Center for Health Research, University of Greenland, invites PhD students to apply for participation in this PhD course. The course is focused on research opportunities in public health and health research. The program will include new technologies such as artificial intelligence, telemedicine, and machine learning as well understanding and integrating community and patient perspectives in Arctic health care and health research.

The course will also introduce theory and methods within implementation science and challenge participants to reflect on how their own research can be implemented to create change across health care in the Arctic.

• New technology • Community and patient perspectives • Implementation • Arctic health research

Inuunerissaavik Steno Kalaallit Nunaat
Steno Diabetes Center Grønland

PRELIMINARY PROGRAM

This is a preliminary program to provide an overview of the topics that will be discussed and researchers that are expected to participate. We reserve the right to make changes.

Date	Topics	Lecturers
Friday Nov. 12 th .	Arrival and welcome dinner	
Saturday, Nov 13 th . PhD course Featuring WORLD DIABETES DAY	Advancing Diabetes research and treatment in Greenland (with the launch of Steno Diabetes Centre Greenland). Deep Learning and data driven prediction models Group work and student exercises.	Dr. Marit E. Jørgensen Dr. Michael L Pedersen Dr. Stine Byberg Dr. Adam Hulman Dr. Ninna Sennftleber PhD Student Trine Jul Larsen Organized by: Steno Diabetes Center Greenland
Sunday, Nov.14 th PhD course	Community perspectives in remote health care delivery Implementation theory and methodology in research and practice Group work and student exercises.	Dr. Elizabeth Rink Dr. Christina VL Larsen Phd Students Christine Ingemann og Julie Flyger Holflod Organized by: Centre for Public Health in Greenland, National Institute of
Monday, Nov 15 th . PhD course	Patient perspectives and participatory methods in health research Group work and student exercises. Wrap up and evaluation	Lene Seibæk Organized by: Institute for Nursing and Health Science
