

ZERO CARBON CONFERENCE

2 CREDITS

Course implementation

- Compulsory participation in Zero Carbon Conference 22-25 Feb at 10.00-12.15 (Eastern European Time) each day. The topics of the days are:
 - Climate change
 - Circular economy
 - Micro plastics
 - Forest resources
- Reflection of the topics as instructed

The course consists of participation in the Zero Carbon Conference for Students 22-25 Feb (10.00-12.15 EET), active participation in the discussion during the conference and a written assignment after the conference.

The Conference will be online in Zoom and streamed in YouTube.

Registration to the course is considered as consent for participation in research about young people's views and thoughts about the topics of the conference. The assignments and discussions within the course can be used as research data. The participants cannot be identified from any published reports. Information about the research will be sent separately to the registered students.
